

ANSALDO

TO WHOM IT MAY CONCERN

We «ANSALDO Energia « witness by the present certificate that «PETROLEUM AND INDUSTRIAL REALISATION CONTACTORS S.A. » has successfully performed the piping erection works (Thermal Cycle Low Pressure) and the assistance for Turbine erection works for the Unit 4 of RADES 2x170 MW Power Plant.

Further more, PIRECO did fullfill to our satisfaction all the specifications and requirements with respect mainly to the following :

Application and implementation of safety procedures
Application of QA/QC procedure
Quality of workmanship
Planning and construction follow up
Cost control and budget follow up
Quality of management and supervision

This certificate has been delivered at the request of PIRECO in order to present it to whom it may concern.

January 1999
