Date: 9-03-2008

Field: ALJURF field MOOC Libya (TOTAL)

Installation: FPSO Farwah with remote platform BD1.

Project: Maintenance shutdown and upgrade project on FPSO and Platform BD1.

PIRECO team arrived onboard FPSO Farwah and Platform BD1 on 05 February in preparation for the planned maintenance shutdown and upgrade project.

Each PIRECO worker had fulfilled his role in a safe and professional manner with good maintenance skills and logistical planning. The planning and coordination skills were very well demonstrated and applied, thus ensuring that all activities started as planned and concluded on time.

A very professional operation, well done
